## SCHOOL BUS TIPS ~OTHER DRIVERS~

On an undivided highway (not divided by a median), do the following:

- Be ready to stop when you see amber lights flashing. Only proceed with extreme caution.
- When red lights are flashing or you see a stop sign extended from the left side of the school bus, you **must** come to a full stop about 20 metres (about 4 to 5 car lengths) away from the school bus.
- You must remain stopped until the alternating flashing red lights are turned off and the stop sign on the driver's side is no longer extended.

On a highway divided by a median, vehicles to the rear of the school bus must stop.

## SCHOOL BUS TIPS ~STUDENTS~

- Be five minutes early for the bus.
- Walk, don't run, to the bus.
- Avoid using a mobile device or gadgets until you are in a safe location.
- It's a good idea for parents to walk the bus route with their child until they know how to get to the bus stop safely.
- Remind your children about pedestrian safety and safe behaviour while they're on and off the bus.
